

bingo and pickle card issue so we can get input from them to determine whether or not we need to make some other changes. Now, we had originally had the three members of our little advisory council chose by the Governor and two by the State Treasurer. I'm sorry, we had three chosen by the Governor, one was to be the State Treasurer and the other one was to be chosen by the State Treasurer. What we decided as we were putting this thing together, inasmuch as the State Treasurer was not going to be regulating bingo that it was silly to have her doing the appointing. So we said who should do it? We said cripes it is the Miscellaneous Subjects Committee that is working the issues through, lets just have our chairman make the appointments because it simply is an interim, it is just a little interim body. That is all we did. These changes are not as substantive as you might think. They have been carefully thought through, they have been heard by the committee. They have been carefully developed and I saw what caught your eye, but what caught your eye is really a very, very modest insignificant point. So I would not ask the bill to be rereferred.

SENATOR BEUTLER: Senator Hefner, sir.

SENATOR HEFNER: Mr. President and members of the body, I rise to oppose the motion that Senator Haberman has put on the desk of the Clerk. I really don't believe that these amendments are that important. They don't change the bill that much. This advisory council that we have set up sunsets December 31, 1984. Of course this temporary commission that we have set up would just be an advisory commission and of course then the bingo and pickle card regulatory commission would be set up July 1, 1984. Previously to that we did have a bill that would remove the state treasurer from any of the duties that the office had regarding bingo. So this is why we eliminated the State Treasurer from this. So I would urge this body to not support the Haberman motion and to listen to the explanation of the amendments and then listen to the explanation of the bill as amended. I think you will see that we are trying to accomplish something that has given us a lot of problems in the last few years. I think this bill as amended will be very good for Nebraska.

SENATOR BEUTLER: Okay, we are speaking to the Haberman amendment to rerefer. Senator Labedz.

SENATOR LABEDZ: Thank you Mr. President. Memembers of the Legislature, I not very often oppose Senator Haberman, but
